

Take your business outside in Swansea city centre

Following the unprecedented events of the COVID 19 Pandemic Swansea Council have produced a temporary Memorandum of Agreement (MOA) that all city centre food and beverage businesses can apply to sign up to.

It has been identified that many businesses – due to social distancing regulations – will only be able to operate successfully if they are allowed to trade outside of their shop floor.

This MOA will help simplify the process of being permitted outside space, within the guidelines and parameters set out in the city centre recovery plan and associated movement restrictions.

Swansea Council are asking businesses who wish to extend their foot print into the street to apply online using the following link:

<https://www.swansea.gov.uk/pavementcafe>

If successful and street space to trade in is allocated there will be no charge to the business while this temporary arrangement remains in place up to 30th September 2020.
