

evePASS

Free contactless check-in and guest registration system for your business.

evePASS is a secure guest management tool that takes the hassle out of registering the customers who visit your business.

The tool is really easy to use and you can be up and running in three simple steps

1

Register your business at evepass.app/business in under a minute

2

Download your QR code from the portal and put it on display for your customers

3

Guests scan your QR Code and their contact details are encrypted and saved on your business log

Benefits for your business

Easy set up

You can set up evePASS in just a few minutes on the website

Full support and maintenance

evePASS are available to give support whenever you need it

Completely free

evePASS is completely free to use - no catch!

Extra bonuses

You'll get a personalized in-app experience with your logo, customized messages and in-app menu.

There are just three simple steps for your customers too:

1

Open the camera app and scan the QR Code

2

Input contact details (1st registration only) & party information

3

Know your details are safe and secure

Benefits for your customers

Quick and easy

evePASS is easy to use, no pen and paper required!

GDPR compliant

Guest contact information is encrypted and safely stored on EU servers.

Bonuses

In-app restaurant menus, whole party or individual registration, and personal visit history
